PROFESSIONAL SUMMARY

B.Tech student (2023–2027, CGPA 8.43/10) at TamilNadu College of Engineering, Coimbatore. Proficient in Python full-stack development with Django — MVC, ORM, REST APIs, and MySQL-backed application design. Built desktop and web applications managing real-time patient, banking, and e-commerce data. Completed professional Python Full Stack (Django) training in 2026. NPTEL-certified (IIT-level) in Data Analytics with Python and Cloud Computing. Seeking a Python Full Stack Developer role to build scalable, production-ready web applications.

TECHNICAL SKILLS

Python	OOP, file handling, Tkinter GUI, MySQL CRUD, exception handling
Django	MVC, URL routing, ORM, views, templates, forms, REST APIs (Django REST Framework)
SQL / MySQL	Schema design, normalization, joins, sub-queries, query optimization, CRUD
HTML & CSS	Responsive layouts, Bootstrap, Django template integration
JavaScript	DOM manipulation, Fetch API, event handling, shopping cart logic
Tools	Git, GitHub, VS Code, SQLite, QR Code API, Core Java (OOP)

PROJECTS

Basic CRUD Application

Python | Django | SQLite

- Built a CRUD application using the Django framework to perform create, read, update, and delete operations.
- Focused on backend logic and SQLite database integration.

Portfolio Website

HTML | CSS | JavaScript | Netlify

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript.
- Hosted using Netlify for live deployment.

Hotel QR Scanner System

HTML | CSS | JavaScript

- Built a QR-based system for digital menu access where users can scan QR codes to view hotel menus through a web interface.

ATM Machine Simulation

Python

- Created a Python-based ATM simulation system with features like balance check, deposit, withdrawal, and PIN validation.

E-Commerce Web Application

HTML | CSS | JavaScript

- Developed a simple e-commerce frontend application using HTML, CSS, and JavaScript.
- Included product listing, UI design, and basic interactive features.

TRAINING

Python Full Stack Development with Django

Professional Training · 2026

- Covered Python backend, Django MVC, URL routing, ORM, REST APIs, MySQL integration, and SDLC methodology across full project lifecycle.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2023 – 2027 · CGPA: 8.43 / 10

TamilNadu College of Engineering, Coimbatore (3rd Year)

HSC (Class XII) — Science Stream

Completed 2023 · 75%

Thirumagal Higher Secondary School, Thanjavur

SSLC (Class X)

Completed 2021 · 94%

Thirumagal Higher Secondary School, Thanjavur

CERTIFICATIONS

- NPTEL Certified — Data Analytics with Python (IIT-level national certification)
- NPTEL Certified — Cloud Computing (IIT-level national certification)
- COA Certified — Computer on Office Automation (85%)
- Junior Typewriting — Tamil & English | Senior Typewriting — Tamil & English
